Instant Lottery Tracking Application

Track lottery and inventory instantly by registering your company and monitoring the activity. Scan lotteries right from one screen, selecting if you want to view “counting down” or “counting up” for calculating all tickets sold. After selecting your preference, the feed will be added to your screen so you can easily see how many tickets were sold the first day and so forth. In the summary bar, view how many items you have completed out of your total lottery, as well as monitor the cost of these products. Once done, view a daily report that covers daily ticket sale amount – easily print the report and track shrinkage if any.

Register

Option

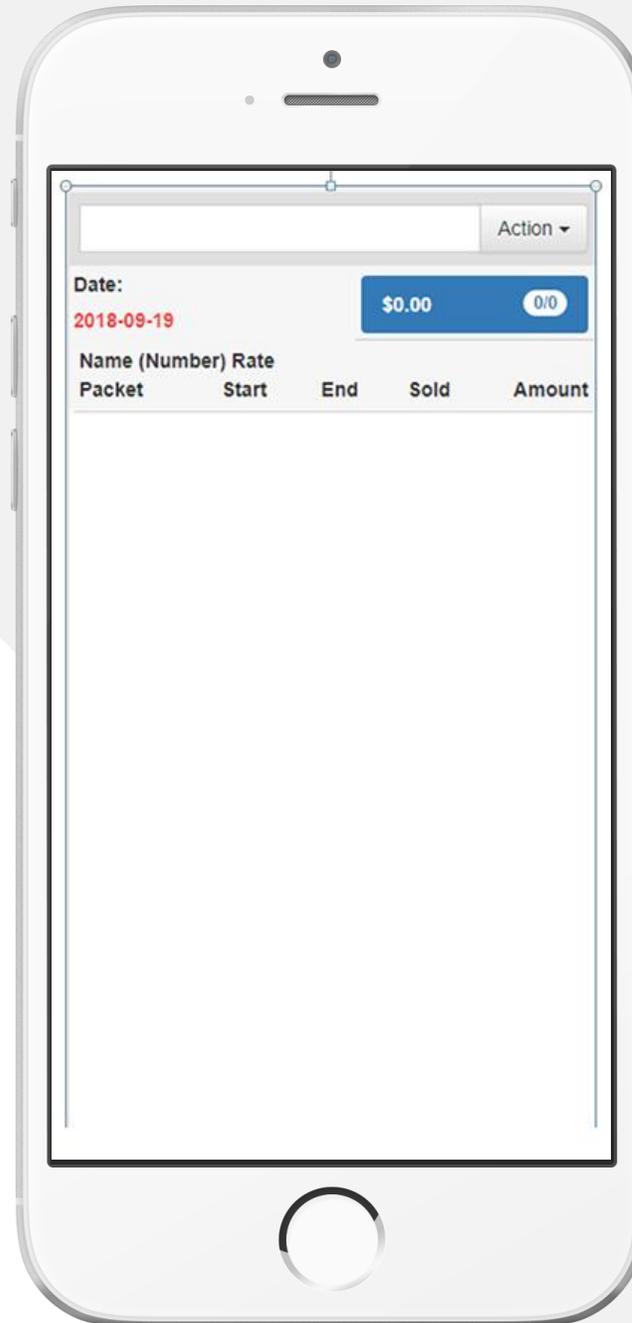

After successful login to the application user will be presented with the option to start the lottery or the inventory tracking process.

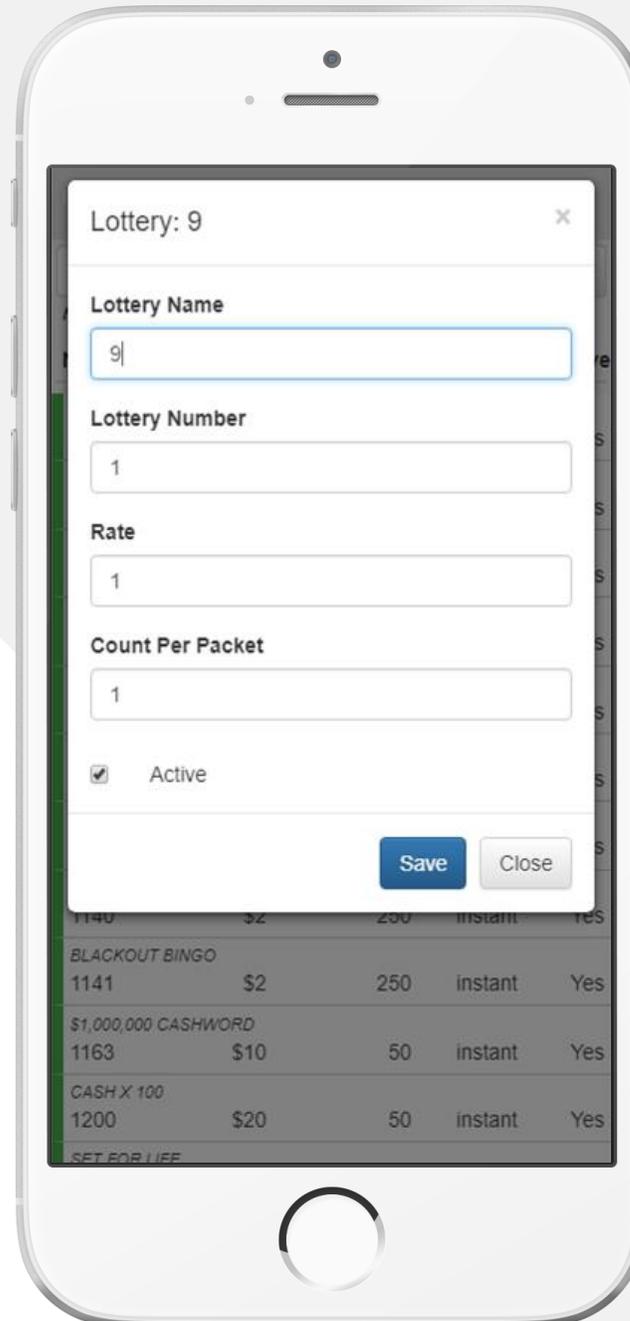

Lottery Tracking

Upon clicking Lottery reporting, the user will be navigated to this screen. Because user login to system first time they will not see any items listed on their lottery screen. Start scanning your instant lotteries.

Lottery Edit

If scanned lottery does not exist in system user will be presented with this screen where user required to enter information about the scanned lottery. In most cases, this information will be managed by the system administrator and not required to enter any information.

Lottery ID	Lottery Name	Rate	Count Per Packet	Instant	Yes
1140		\$2	250	instant	Yes
BLACKOUT BINGO					
1141		\$2	250	instant	Yes
\$1,000,000 CASHWORD					
1163		\$10	50	instant	Yes
CASH X 100					
1200		\$20	50	instant	Yes
SET FOR LIFE					

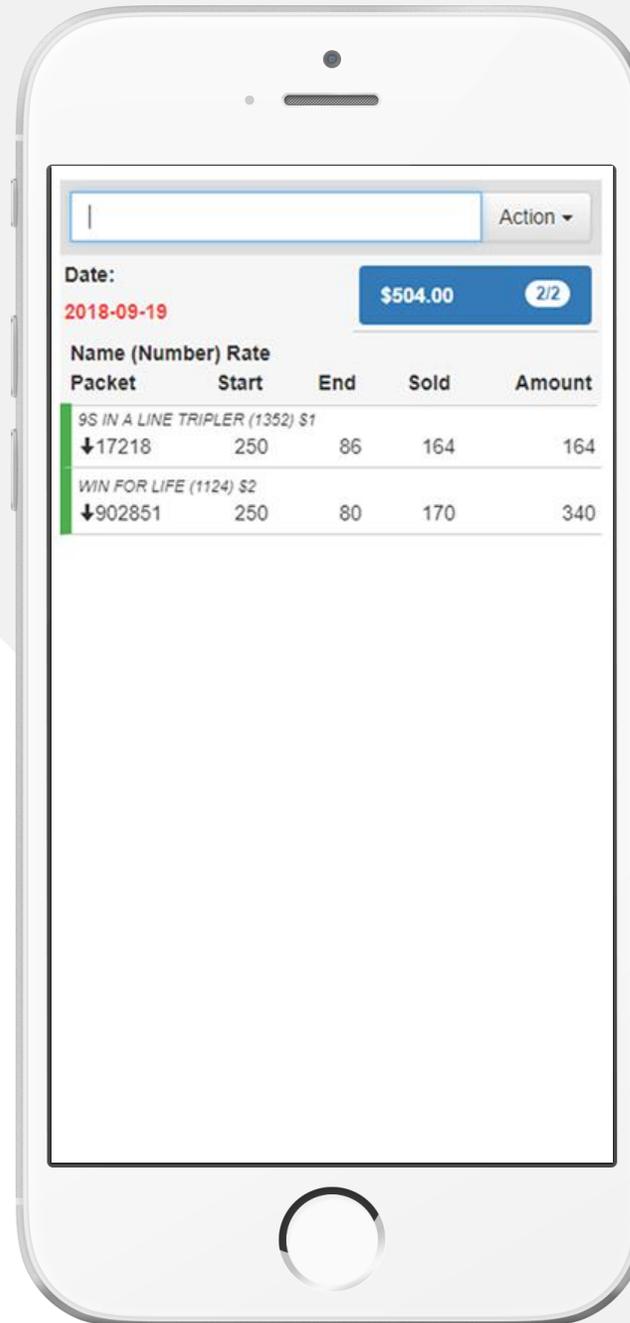

Display Type

When you scan given packet the first time the user will be presented to indicate in which direction this packet is open. i.e. counting down or up for calculating sold tickets. Select your direction of count. If the first ticket sold is the lowest number in packet select forward. If the first ticket sold is the last number in packet select reverse In this screen.

Lottery List

After selecting your direction user will see this lotter added to your list of items with an indication as up or down arrow which identifies the direction of count. Based on lottery setting the first scan will display how many tickets you sold the first day, and the next day onwards based on previous day system will count a number of tickets sold and the amount that contributed to cash.

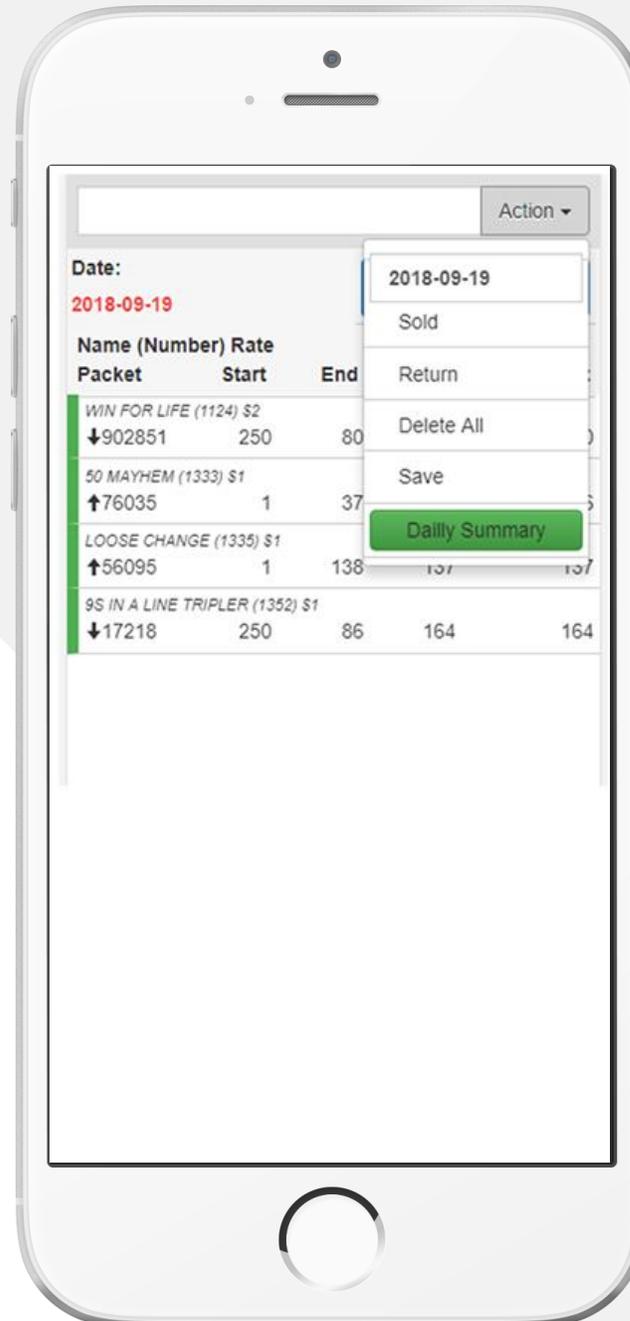

Summery Screen

how many items you have completed out of your total lottery is indicated in blue summery bar i.e. (If the business is tracking 10 items and completed 4 items for the day bubble will display 4/10) and also indicates the current cost of these products.

After completing all scan select Action-> Daily summery to enter daily machine sale information.

Total amount from this screen will be populated on daily summery screen.

Daily Summery

In this screen enter your daily machine report. Daily instance ticket sale amount is populated from the previous screen. Only machine sale and instance paid out information is required to enter in this screen.

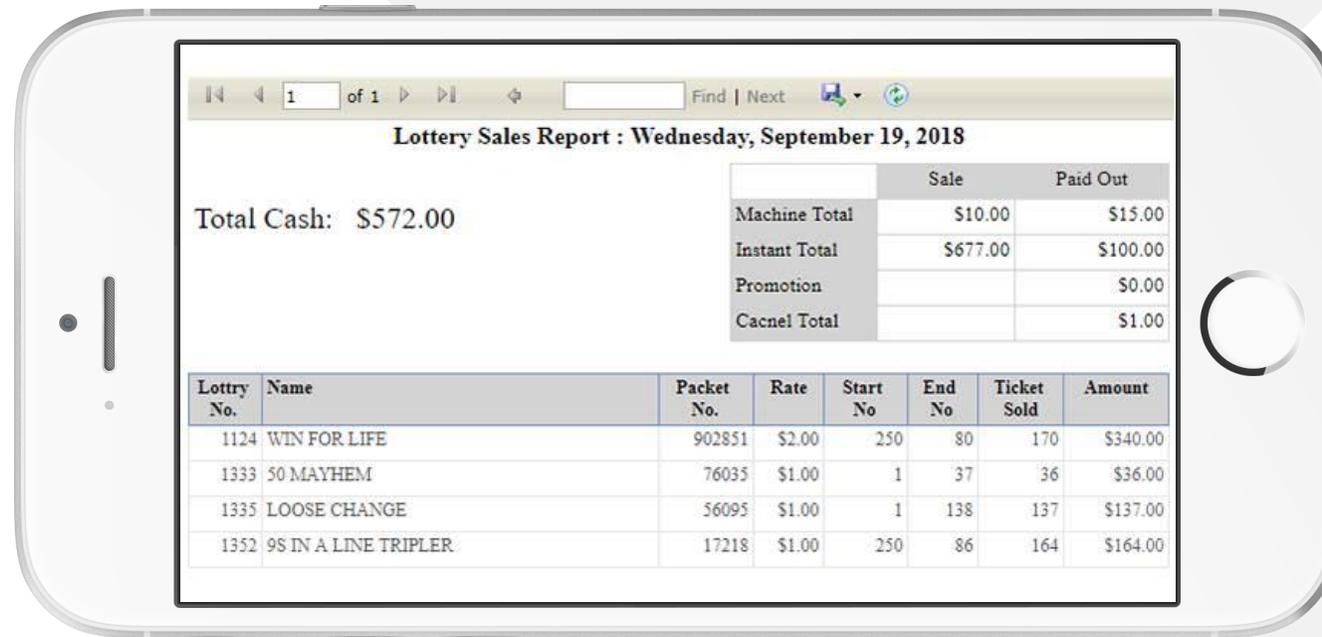

Once all entry complete click "Print Report" which will generate a report listing all instance lotter sold today with the exact cash required into the drawer.

A white smartphone is shown vertically, displaying the "Daily Summery" app interface. The screen is framed by a thin black border. At the top of the app, there is a light blue header with the text "Daily Summery" on the left and a "Manage" button with a downward arrow on the right. Below the header, there are two input fields: "Date" with the value "2018-09-19" and "Total Cash:" with the value "677". To the right of the "Total Cash" field is an orange "Print Report" button. Underneath, there is a section titled "Sale Detail" in blue. This section contains a table with three columns: "Sale", "Cancel", and "Paid Out". The first row is for "Machine" with values "\$0.00", "\$0.00", and "\$0.00". The second row is for "Instance" with values "677", a green "Get" button, and "\$0.00". Below the "Sale Detail" section is another section titled "Promotion Detail" in blue, which contains a "Promotion" label and a dropdown menu showing "...".

	Sale	Cancel	Paid Out
Machine	\$0.00	\$0.00	\$0.00
Instance	677	Get	\$0.00

Report

To generate next day report just go back to lottery reporting screen which is prepopulated with pervious day's data as start number just scan today's ticket which will be indicated as green bar for each line and also count inside white bauble in blue bar which is visual indication to identify how many tickets has been scanned out of total to scan. This bar also indicates how much instance ticket sale has happened today
